

Flap Turnstile ACTDS-312X

SINGLE / BI-DIRECTION

Description

- Optical flap turnstile is to control pedestrian entry or exit in restricted areas, usually used in high pedestrian traffic flow in both directions.
- The body is made of brushed stainless steel which is robust, rigid, anti-rust, waterproof and durable.
- It is ideal for both indoor and outdoor settings.
- It has standard relay signal, which can be integrated with any kind of third-party access control system (e.g.: RFID, Fingerprint and Biometric reader device).
- It has sufficient space, which can be mounted with any type of external device(e.g.: Display, Counter, Reader, Push button, Card collector, Coin insert, Barcode/QR reader, Wheel).
- In case of emergency, the flap arms will open automatically to allow free passage when power off.
- It is suitable for areas with high pedestrian traffic (e.g.: Hotel, Building, Dormitory, Station, Airport, Park).
